Mr. R. ff. D. Brews  
Mr. K. Lawrence

Ex-officio:

Lt. Col. P. L. Bowers  
E. Batho Esq.

STAFF - PUBLIC HEALTH DEPARTMENT

MEDICAL OFFICER OF HEALTH (part time)	-	Esther Jackson, M.B., Ch.B., D.P.H.
Clerk	-	Mrs. V. Donovan (to 31st July 1970) Mrs. Wharton (1st September to 9th October 1970) Mrs. A. Smith (26th October 1970)
CHIEF PUBLIC HEALTH INSPECTOR & SURVEYOR (part time public health duties)	-	F. E. Casemore, A.I.A.S., M.R.S.H., M.A.P.H.I.
ADDITIONAL PUBLIC HEALTH INSPECTOR (full time public health)	-	M. F. Capon, M.A.P.H.I.
ADDITIONAL SURVEYOR & PUBLIC HEALTH INSPECTOR	-	B. R. Marchant, M.R.S.H., M.A.P.H.I., M.R.I.P.H.H.
Mr. Marchant's secondment to the Council's Consulting Engineers in connection with Iwerne Minster main drainage improvement scheme continued during the year. Because of this secondment there was a shortage of staff for public health duties.		
ADDITIONAL PUBLIC HEALTH INSPECTOR	-	R. A. Leach, M.A.P.H.I., M.I.M.
Meat inspection duties four mornings per week; seconded to Shaftesbury Borough Council for public health duties remainder of week.		
MEAT INSPECTORS	-	D. Sharpe, M.A.M.I. R. A. Watson, M.A.M.I. A. Rockett, M.A.M.I.

It was necessary for Mr. Capon to spend some time on meat  
inspection duties so that there was inadequate staff time  
for general public health duties.

Clerical Staff - Two part time Clerks.

# SHAFTESBURY RURAL DISTRICT COUNCIL

## ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH FOR THE YEAR 1970

### GENERAL STATISTICS

Area in acres	42,000
Registrar General's Estimated Mid-Year Population	10,530
Number of dwellings	3,711
Rateable Value (at 1st April 1970)	£320,756
Product of penny rate	£1,282.10p.

### VITAL STATISTICS

		1970			1969
<u>BIRTHS</u>	registered	Male	Female	Total	Total
	Live Births				
	Total	84	61	145	140
	Legitimate	78	58	136	134
	Illegitimate	6	3	9	6
	Still Births				
	Total	1	1	2	2
	Legitimate	-	1	1	1
	Illegitimate	1	-	1	1

		1970			1969
<u>DEATHS</u>	registered	Male	Female	Total	Total
	Total	75	76	151	121
	Maternal deaths	-	-	-	-
	Deaths of infants				
	under 1 yr. Total	2	0	2	4
	Legitimate	1	0	1	4
	Under 4 weeks of age				
	Total	2	0	2	4
	Under 1 week	2	0	2	4

The succeeding table of figures shews the birth rates etc. for the Shaftesbury Rural area and the rates for England & Wales for comparison.

	1970 Shaftesbury Area	1969	1970 England & Wales	1969
Live birth rate per 1,000 est. population	13.8	13.5	16.0	16.3
Area comparability factor	1.15	1.15	1.00	1.00
Local adjusted rate	15.9	15.5	16.0	16.3
Illegitimate live births as % of all live births	6	4	8	8
Stillbirth rate per 1,000 total live and still births	14	14	13	13
Infant mortality rate per 1,000 live births	14	29	18	18
I.M.R. of legitimate infants	7	30	17	17
I.M.R. of illegitimate infants	111		26	25
Neonatal mortality rate (Deaths under 4 weeks per 1,000 live born)	14	29	12	12
Early neonatal mortality rate (Deaths under 1 week per 1,000 live born)	14	29	11	10
Perinatal mortality rate (still births & deaths under 1 week per 1,000 total live and still births)	27	42	23	23
Deaths per 1,000 population	14.3	11.6	11.7	11.9
Area comparability factor	0.84	0.83	1.00	1.00
Local adjusted death rate	12.0	9.6	11.7	11.9

In calculating Birth and Death Rates area comparability factors are issued by the Registrar General to "correct" marked variations from average in the age and sex structure of the local population and to take into account any unusually high or low mortality due to the presence of residential institutions etc. The local crude rate multiplied by the area comparability factor produces a rate comparable with rates in other parts of the country.

## CAUSES OF DEATH DURING THE YEAR

	1970			Total	Total
	Male	Female	Total	1969	1968
Tuberculosis - all forms	1	0	1	0	0
Other infective illnesses	0	0	0	0	0
Malignant neoplasm					
Lung and bronchus	6	1	7	9	5
Breast	0	5	5	2)	
Uterus	-	2	2	1)	
Prostate	1	-	1	0)	20
Stomach and intestines	7	8	15	4)	
Leukaemia	0	0	0	0)	
Other sites	5	1	6	7)	
Diabetes mellitus	0	0	0	0	
Other endocrine etc. diseases	0	0	0	0	
Other diseases of nervous system etc.	0	2	2	0	
Ischaemic heart disease	18	12	30	31	27
Cerebrovascular disease	6	13	19	21)	35
Other heart & circulatory system diseases	9	14	23	20)	
Influenza	2	2	4	3	
Pneumonia	5	2	7	5	2
Bronchitis and emphysema	9	3	12	4	
Other diseases of respiratory system	0	2	2	1	
Ulcer and diseases of digestive system	0	3	3	1	
Other diseases of liver and intestines	0	0	0	0	
Diseases of kidneys and genito-urinary system	0	1	1	2	
Congenital anomalies & other causes of perinatal mortality	2	0	2	5	
Other defined and ill-defined diseases	1	3	4	0	
Motor vehicle accidents	1	1	2	2	1
All other accidents	2	1	3	1	3
Suicide and self-inflicted injuries	0	0	0	2	1
	75	76	151	121	94

Figures for previous years are included for comparison. It is apparent that the list of numbers dying in the population of this area has little meaning unless compared with figures for the whole country; any seeming differences in trends and figures are artifacts due to the relatively small numbers of deaths in the area.

## CONTROL OF COMMUNICABLE DISEASES

### A. Diseases against which immunisation is offered TUBERCULOSIS

B.C.G. vaccination is offered to those children during their second or third year at secondary school, who, on testing, are found to lack immunity. B.C.G. vaccination is also offered by the hospital service to the younger children who are known to have been in contact with tuberculosis.

No case of tuberculosis was notified during the year.

### DIPHTHERIA

Again no notification was received and it is many years since a case was notified in the district. Immunisation of young children and subsequent booster doses is undoubtedly responsible for this satisfactory freedom from infection.

### POLIOMYELITIS

No case has been notified for many years in this district. Again vaccination with oral poliomyelitis vaccine is responsible for the local freedom from this disease. Primary vaccination is given during the second half of the first year of life with a

## Diseases against which immunisation is offered(continued)

booster dose before school entry and another booster at 12 years old.

### WHOOPING COUGH

Two cases were notified during the year.

### TETANUS

This disease is a severe and dangerous illness and active immunisation is offered to babies with a booster just before school entry and a further booster at 12 years old.

### MEASLES

Vaccination against measles sometimes produces a reaction comparable to a very mild and very brief attack of measles. In 1968 one of the two strains of vaccine in use was withdrawn and for a time there was a shortage of vaccine so that the level of vaccination has fallen below that which would eradicate this unpleasant disease.

54 cases of measles were notified during the year.

### GERMAN MEASLES

In July the Department of Health recommended that vaccination against rubella (german measles) should be offered to all girls between their 11th and 14th birthdays but that initially priority should be given to older girls, i.e. those in their 14th year. Vaccine became available just before the end of 1970.

## VACCINATION STATISTICS 1970

(The term vaccination is now used internationally for procedures which in this country we used to describe as vaccination and immunisation).

POLIOMYELITIS												
DISTRICT	ORAL		DIPHTHERIA		TETANUS		WHOOPING COUGH		SMALLPOX		MEASLES	RUBELLA
	P	R	P	R	P	R	P	R	P	R		
Shaftesbury R.D.C.	97	316	98	115	101	192	94	29	45	3	100	23
P = Primary course R = Reinforcing dose												

### B.C.G. Vaccination against tuberculosis

105 children were vaccinated in school in the area.

All these figures are supplied by the County Medical Officer and refer to vaccinations of children.

It is not possible to compare these figures directly with those for previous years because in 1968 new schedules for the timing of injections etc. were introduced.

Vaccinations are now started at 6 months of age and it is no longer necessary to give a booster dose of anti-diphtheria, whooping cough and tetanus at 18-20 months.

### INFECTIVE JAUNDICE

20 cases of infective jaundice were notified, 19 of them very early in the year after one case in this district in December 1969 and a few cases in a neighbouring district. A possible course of infection was traced and as it appeared probable that infection might spread widely in a residential establishment the pathologists at Salisbury and Dorchester

### Infections against which routine vaccination is not offered (continued)

arranged that those at risk should receive prophylactic injections. Their prompt advice and help put a dramatic stop to an epidemic. There were no deaths from the disease.

### FOOD POISONING AND DYSENTERY

No case of food poisoning or of dysentery was notified during the year.

### INFESTATIONS

#### Head Lice

Lice and nits have once again ceased to be a rarity among schoolchildren. This is probably a reflection of the fashion for longer, loose hair among women and men. Most of the infestations reported to the Health Authority were among school children; older patients usually go direct to their general medical practitioner for treatment.

### PUBLIC HEALTH LABORATORY SERVICE.

The Public Health Laboratory Service has continued to give excellent service. The Salisbury laboratory under the direction of Dr. P. J. Wormald has dealt with part of the work and the Dorchester laboratory under the direction of Dr. G. H. Tee with the remainder. As reported above the two pathologists worked together to prevent the spread of infective jaundice.

Brucellosis in humans is not a notifiable disease but public interest in the scheme for eradication of brucellosis from dairy cattle has increased awareness of the possibility of brucellosis infection in humans. Dr. Tee reports that the Dorchester Public Health Laboratory examined an increased number of specimens from humans. However, the percentage of sera found positive has remained remarkably constant at about 6% over the past three years.

### NATIONAL ASSISTANCE (AMENDMENT) ACT 1951

I am happy to report that it has not been necessary to take any formal action under this Act by which the Magistrates can order the removal of an elderly person living in unsatisfactory circumstances and unable to care for himself but unwilling to be admitted to hospital when a bed is available.

### COUNTY COUNCIL SERVICES

The Home Help Service administered by the County Health Department has continued to support the elderly and has given equally valuable support to other families when illness has prevented the homemaker from carrying out her normal work.

The Local Health Authority also organises the Ambulance Service and the appointment of nurses and of Health Visitors who play an important part in health education and the prevention of illness.

Dental Clinics. Child Health Clinics are provided for those who prefer to have dental treatment and vaccinations carried out at the county council clinics.

### VOLUNTARY SERVICES

Acknowledgement must again be made to the excellent work carried out in the district by voluntary bodies; the two services detailed below are examples of voluntary work for old people.

The W.R.V.S. organises a meals-on-wheels service on two days

## VOLUNTARY SERVICES (continued)

each week. During the year 36 old people benefitted from this service compared with 21 in 1969. Not only are the meals appreciated by the old people but also the visits of the helpers who take round the meals.

The B.R.C.S. organises the chiropody service for the elderly and arranged transport for them to the chiropody clinic held at St. Martin's, Gillingham on Mondays and at the Town Hall, Shaftesbury on Fridays.

## ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR

### NATURE OF THE DISTRICT & PRINCIPAL INDUSTRIES & TRADES

The principal industries of the area are agricultural with associated activities which include two bacon factories and one other slaughterhouse, and a cheese factory. In addition, there are factories dealing in instrument engineering, glove manufacturing and soft toys.

### WATER SUPPLY

#### Public Supplies

Relevant Authority: West Wilts Water Board.

The Water Board reported on 851 samples taken during the year and submitted for examination at the Salisbury laboratory.

199 samples showed varying degrees of pollution. These samples were almost entirely from spring supplies prior to chlorination. A further 21 samples were found to be unsatisfactory after chlorination (19 minor pollution and 2 gross pollution).

#### Private Supplies

There were 3 private supplies namely:-

Claysmore School,

Iwerne Minster - 6 samples.	4 (after chlorination)	satisfactory
	2 (before " )	unsatisfactory.

Oake Woods & Co., Ltd.,

Gillingham	-	2 (satisfactory)
------------	---	------------------

Chaffeymoor, Bourton	-	2 (satisfactory)
----------------------	---	------------------

The Fontmell Magna private supply was discontinued during the year and all domestic properties connected to the West Wilts Water Board main supply.

### DRAINAGE AND SEWERAGE

Work on the main drainage improvement scheme for Iwerne Minster continued and was virtually completed by the end of the year.

Satisfactory progress was made throughout the year by the contractors engaged on the provision of main drainage at Bourton. Following an approach by Wincanton R.D.C. negotiations took place with a view to main drainage of Penselwood (Somerset) being extended and connected to Bourton main drainage.

Negotiations took place with Sturminster R.D.C. with a view to an extension of their proposed main drainage scheme for Moorside (Marnhull) for the purpose of serving properties at Todber, but after consideration of the probable cost the Council resolved that the scheme would be too expensive for the small number of properties at Todber.

Drainage nuisances continued at Motcombe, Milton-on-Stour, Kington Magna and East Stour.

## DRAINAGE & SEWERAGE (continued)

### Cesspool emptying.

In order to avoid any misunderstanding in connection with cesspool emptying the Council resolved that the service would operate under Section 74 of the Public Health Act, 1936 and that residential properties and approved village halls could have one cesspool vehicle load removed free of charge each year.

During the year 639 properties took advantage of the Council's free service.

## PUBLIC CLEANSING

### (a) Collection and disposal of house refuse:-

A weekly collection operates for Gillingham and a fortnightly collection for the remainder of the district.

### (b) A salvage scheme was in operation during the year.

<u>Material</u>	t.	c.	q.	£.	s.	d.
Mixed paper	104.	6.	0.	758.	14.	0.
Rags	1.	2.	3.	14.	8.	0.
Light scrap and aluminium		-		13.	0.	0.
say	109.	0.	0.	886.	2.	0.

## Roadside Sanitation

Following complaint of a polluted watercourse at Stour Provost, an agreement was reached between Avon and Dorset River Authority, Dorset County Council and Shaftesbury Rural District Council that the cost of abating the nuisance should be shared proportionately between the three authorities.

No public convenience is provided on roads traversing the Rural District.

## OFFICES, SHOPS & RAILWAY PREMISES ACT, 1963

No. of inspectors appointed under the Act	1
Estimated No. of Premises subject to registration	77
No. of Premises registered	77
No. of Premises Inspected	61
No. of inspections carried out	83

## FACTORIES ACT

### 1. Inspections for purposes of provisions as to health (including inspections made by Public Health Inspectors)

Premises	Number on Register	Number of Inspections	Written notices	Occupiers prosecuted
(1)	(2)	(3)	(4)	(5)
(i) Factories in which Sections 1,2,3,4 and 6 are to be enforced by Local Authorities	3	1		
(ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority	39	5	1	
(iii) Other Premises in which Section 7 is enforced by the Local Authority (excluding out-workers' premises)				
Total	42	6	1	

## FACTORIES ACT 1961 (continued)

### 2. Cases in which DEFECTS were found.

Particulars  (1)	Number of cases in which defects were found		Referred		Number of cases in which prosecutions were instituted  (6)
	Found (2)	Remedied (3)	To HM Inspector (4)	By HM Inspector (5)	
Ineffective drainage of floors (S6)					
Sanitary Conveniences (S.7)					
(a) Insufficient					
(b) Unsuitable or defective	1			1	
(c) Not separate for sexes					
Other offences against the Act (not including offences relating to Outwork					
Total	1			1	

No. of Outworkers

69

## CLEAN AIR ACT 1956

One application, under Sections 6 and 10, for the purpose of installing a furnace and erecting a chimney, was approved by the Council.

## RADIOACTIVE SUBSTANCES ACT

There is no premise in the district registered under this Act.

## ANIMAL BOARDING ESTABLISHMENTS ACT

No. of premises registered under the Act

3

No. of inspections carried out

3

## SWIMMING BATHS

No. of swimming baths to which the public have access

1

Regular sampling by County Council staff as the swimming bath is one of those in the grounds of a County school.

## THE CONTROL OF MOVEABLE DWELLINGS

No. of licensed sites

9

Nature of Sites - 1 permanent (3 caravans)  
1 seasonal (15 caravans)  
7 individual sites

No. of inspections carried out

6

## VERMINOUS PREMISES

A few complaints of fly and flea infestation. D.D.T. powder used for fleas. Zaldecide M and Lindane smoke pellets for flies.

## PUBLIC CONVENIENCES

One at Gillingham. Provided with handwashing facilities (cold water only) for both sexes.

## PREVENTION OF DAMAGE BY PESTS ACT, 1949

As a result of complaints and routine inspections, treatments were carried out by the North Dorset Joint Rodent Committee which is organised by Sherborne Urban District Public Health Inspectors and serves this Council's area, Beaminster, Sherborne and Sturminster Rural Districts, Shaftesbury Borough and Sherborne Urban.

90 complaints were referred to the N.D.J.R.C. by this authority and 1,105 visits were made by the officers to properties in this District.

Business premises	27
Private dwellings	79
Local Authority	19
Farms	<u>115</u>
	<u>240</u>

## PET ANIMALS ACT 1951

No. of licensed premises	1
No. of inspections made	1

## SANITATION OF SCHOOLS (INCLUDING SCHOOL CANTEEN HYGIENE)

Routine inspections were made and conditions were found to be satisfactory.

## HOUSING

Total number of houses in the district 3,764

### Inspection of dwelling houses during the year:

Total No. of dwelling houses inspected during the year 38

No. of inspections made 154

No. of informal notices served 26

No. of informal notices complied with 20

No. of Statutory Notices served 2

No. of Statutory Notices complied with 1

No. of houses reported under Section 16 of the Housing Act, 1958 None

Action taken by the local authority in respect of such houses:-

Demolition Orders made None

Undertakings accepted for:-

(a) Closure None

(b) Reconditioning None

(c) Other action None

No. of houses included in Clearance Areas during the year None

### Housing Act, 1964. Section 13

No action was taken under this Section of the Act.

### Overcrowding

No case of 'statutory' overcrowding was found during the year.

### Houses Let In Lodgings

No house in the District is known to be let in lodgings.

## HOUSING (continued)

### Housing Repairs and Rents Act, 1954

No application was received for a certificate of disrepair.

### Improvement Grants

No. of applications received during the year:	40	
	(a) <u>Standard</u>	(b) <u>Discretionary</u>
No. granted	29	7
No. pending	1	1

### New Houses

No. of new dwellings provided by private enterprise during the year	46
No. of new dwellings provided by the Local Authority during the year	None*

\* 32 Council dwellings were under construction at the end of the year.

### Re-housing

Total No. of families housed during the year by the Local Authority	24
---	----

### Housing Applications

No. of persons who are applicants for a Council House at the end of the year:-

(a) resident within the district	169
(b) resident without the district	33

## INSPECTION AND SUPERVISION OF FOOD SUPPLIES

### 1. Milk

#### The Milk & Dairies (General) Regulations, 1959

No. of 'dairies' in the district subject to registration	6
No. of 'distributors' subject to registration	7

#### Samples

To avoid duplication of effort all sampling was undertaken by Dorset County Council

No. of samples	53
No. satisfactory	32

#### Milk Supplies - Brucella Abortion

After notification by Dorset County Council of positive samples at three farms, visits were made and advice given to farmers and employees on precautions to be taken.

## INSPECTION AND SUPERVISION OF FOOD SUPPLIES (continued)

### 2. Other Food Premises

#### (a) Food Hygiene (General) Regulations, 1960

Details of food premises subject to the above, grouped in categories of trade carried on in them and including the following information for each category separately:-

<u>Trade</u>	<u>No. of Premises</u>	<u>No. of Premises fitted to comply with Reg. 16</u>	<u>No. of Premises to which Reg. 19 applies</u>	<u>No. of Premises fitted to comply with Reg. 19.</u>
Hotels	4	4	4	4
Cafes	6	6	6	6
Public Houses	15	15	15	15
Clubs	5	5	5	5
Church Halls	5	5	5	5
Canteens - Schools	5	5	5	5
Confectioners	13	13	11	11
Meat and Fish	9	9	9	9
Grocers	4	4	4	4
Mixed Stores	35	31	35	33
Boarding Schools	3	3	3	3
Food Factories	14	14	14	14
Others	11	11	11	11

No. of such premises inspected during the year 115

No. of inspections carried out 165

#### (b) No. of food premises subject to registration under Section 16 of the Food & Drugs Act, 1955 in respect of

(i)	Ice Cream	48
(ii)	Sausages & Prepared Meats	11
(iii)	Fish and Chips	2

#### (c) The method in use for disposal of condemned food:

Incineration

#### (d) No exemption certificates were granted in respect of Food Hygiene Regulations 1955-56.

#### (e) Bye-laws in respect of handling and wrapping of food etc. are not operative in the district.

### Slaughterhouses

No. of licensed slaughterhouses in the district	3
No. of licensed knackers yards in the district	Nil

### Meat Inspection

#### (a) At slaughterhouses all animals slaughtered are inspected.

Condemned meat:	Carcase Meat	64 tons	18 cwt.
	Offal	43 tons	4 cwt.

#### (b) At Butchers and other shops:

Corned beef	6 lbs.
Bacon (at school canteen)	610 lbs.

#### (c) Other Food

Ice Cream	37 fl. ozs.
-----------	-------------

## POULTRY INSPECTION.

There is no "poultry processing" premise within the district but there are a few establishments where some slaughtering and dressing of poultry is carried out.

Pressure on the meat inspection staff occurs when all slaughterhouses are slaughtering simultaneously, although at other times the inspectors are able to give limited assistance to two neighbouring local authorities.

No further action was taken by the Council to provide a more adequate meat inspection service at Case & Sons Ltd., Motcombe (see Annual Report for 1966).

From 1st April until 30th September 1970 the Council's meat inspectors took over meat inspection duties in the Sturminster Rural District by agreement between the two Councils.

As from 18th May 1970, Mr. Leach, Meat Inspector, who is also a qualified Public Health Inspector, took over temporary part-time public health duties in Shaftesbury Borough by agreement between the two Councils.

CARCASES AND OFFAL INSPECTED AND CONDEMNED IN WHOLE OR IN PART

	Cattle excluding cows	Cows	Calves	Sheep & Lambs	Pigs
Number killed	160	567	4,081	1,552	122,062
Number inspected	160	567	4,081	1,552	122,062
<u>All diseases except (a) Tuberculosis and (b) Cysticercosis:</u>					
Whole carcasses condemned	-	27	116	22	762
Carcases of which some part or organ was condemned	30	401	101	183	15,805
Total of part or whole carcasses condemned	30	428	217	205	16,567
Percentage of the number inspected affected with other than (a) or (b)	18.8	75.5	5.3	13.2	13.6
<u>Tuberculosis only:</u>					
Whole carcasses condemned	-	-	-	-	-
Carcases of which some part or organ was condemned	-	-	-	-	3,313
Total of part or whole carcasses condemned	-	-	-	-	3,313
Percentage of the number affected with tuberculosis	-	-	-	-	2.7
<u>Cysticercosis only:</u>					
Carcases of which some part or organ was condemned	3	-	-	-	-
Carcases submitted to treatment by refrigeration	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-

SUMMARY OF INSPECTIONS (INCLUDING HOUSING) CARRIED OUT

Total No. of inspections (under all headings)	1,245
Total No. of informal notices served	66
Total No. of informal notices complied with	23
Total No. of statutory notices served	2
Total No. of statutory notices complied with	2
No. of prosecutions	Nil
